10 **Digital Object Identifier** 10.4230/LIPIcs.CVIT.2016.23

11 1 Typesetting instructions – please read carefully

12 Please comply with the following instructions when preparing your article for a LIPIcs
13 proceedings volume.

- 14 ■ Use pdf_latex and an up-to-date LaTeX system.
- 15 ■ Use further LaTeX packages only if required. Avoid usage of packages like `enumitem`,
16 `paralist`, `cleverref`. Keep it simple, i.e. use as few additional packages as possible.
- 17 ■ The `enumerate` package is preloaded, so you can use `\begin{enumerate}[(a)]` or the
18 like.
- 19 ■ Add custom made macros carefully and only those which are needed in the article (i.e.,
20 do not simply add your convolute of macros collected over the years).
- 21 ■ Do not use a different main font. For example, the usage of the `times`-package is
22 forbidden.
- 23 ■ Provide full author names (especially with regard to the first name) in the `\author` macro
24 and in the `\Copyright` macro.
- 25 ■ Provide only one author per `\author` macro, even if two or more authors have the same
26 affiliation.
- 27 ■ Fill out the `\subjclass` and `\keywords` macros. For the `\subjclass`, please refer to the
28 ACM classification at <https://www.acm.org/publications/class-2012>.
- 29 ■ If you refer to a longer version of the paper (“full version”), please make sure to provide a
30 persistent URL, e.g., at arXiv. Please mention this full version using the `\relatedversion`
31 macro.
- 32 ■ Take care of suitable linebreaks and pagebreaks. No overfull `\hboxes` should occur in the
33 warnings log.
- 34 ■ Provide suitable graphics of at least 300dpi (preferably in pdf format).
- 35 ■ Use the provided sectioning macros: `\section`, `\subsection`, `\subsection*`, `\paragraph`,
36 `\subparagraph*`, ... “Self-made” sectioning commands (for example, `\noindent{\bf My`
37 `subparagraph.}`) will be removed and replaced by standard LIPIcs style sectioning com-
38 mands.
- 39 ■ Do not alter the spacing of the `lipics-v2018.cls` style file. Such modifications will be
40 removed.
- 41 ■ Do not use conditional structures to include/exclude content. Instead, please provide
42 only the content that should be published – in one file – and nothing else.

Leibniz International Proceedings in Informatics

Schloss Dagstuhl – Leibniz-Zentrum für Informatik, Dagstuhl Publishing, Germany

- 43 ■ Remove all comments, especially avoid commenting large text blocks and using `\iffalse`
- 44 `... \fi` constructions.
- 45 ■ Keep the standard style (`plainurl`) for the bibliography as provided by the
- 46 `lipics-v2018.cls` style file.
- 47 ■ Use BibTeX and provide exactly one BibTeX file for your article. Please make sure that
- 48 there are no errors and warnings with the referenced BibTeX entries.
- 49 ■ Use a spellchecker to get rid of typos.
- 50 ■ A manual for the LIPICs style is available at [http://drops.dagstuhl.de/styles/](http://drops.dagstuhl.de/styles/lipics-v2018/lipics-v2018-authors/lipics-v2018-manual.pdf)
- 51 `lipics-v2018/lipics-v2018-authors/lipics-v2018-manual.pdf`.
